Mission

The **SOUTHERN JOURNAL OF SCIENCES** is a double-blind peer review, open access, **multidisciplinary** Journal dedicated to publishing high-quality content and is intended to fill a gap in terms of scientific information for Southern Brazil. We have set high standards for the articles to be published by ensuring strong but fair refereeing by at least two reviewers. The Journal publishes original research articles in all the fields of Engineering, Mathematics, physics, Chemistry, Biology, Agriculture, Natural resource management, Pharmacy, Medicine, and others.

Occasionally the Journal will include review papers, interviews, and other types of communications. It will be published mainly in English, and at present, there are no page charges.

We hope this Journal will provide a forum for disseminating high-quality research in Science and are open to any questions and suggestions.

The responsibility for the articles is exclusive to the authors.

Dear Readers,

I am pleased to present this special issue of the Southern Journal of Sciences, devoted to celebrating the Second Southern Science Conference. This prestigious event will be held in the beautiful city of Mendoza, Argentina, from November 7th to 9th, 2024.

To commemorate this exciting conference, we have put together a collection of interviews with the esteemed speakers and invited guests who will be sharing their expertise and insights. Through these interviews, we aim to provide our readers with a glimpse into the cutting-edge research and discoveries that will be presented at the conference. We have entrusted our amateur reporter with conducting the interviews for this special issue, and we will continue to rely on his enthusiasm and dedication until a more experienced candidate emerges.

The Second Southern Science Conference promises to be a platform for scientific exchange, collaboration, and networking among researchers, academics, and industry professionals from across the southern hemisphere and beyond. Mendoza, known for its stunning landscapes, rich culture, and renowned wine production, will serve as the perfect backdrop for this gathering of brilliant minds.

We hope that this special issue will not only generate enthusiasm for the upcoming conference but also inspire and inform our readers about the latest advancements in various scientific fields. We extend our gratitude to all the speakers and invited guests who took the time to share their thoughts and experiences with us.

As always, we at the Southern Journal of Sciences remain committed to delivering high-quality, peer-reviewed content to our readers. We look forward to your continued support and engagement as we strive to promote scientific excellence and foster international collaboration.

Sincerely,

Walter José Peláez, Ph.D., walter.pelaez@unc.edu.ar, Argentina, UNC.
